

## "UNDERGROUND R. R." OF BUCKEYES

The Buckeye Club met last evening at the residence of Mrs. W. J. Forbes, Wilder avenue, with Dr. Garvin, president of the society, in the chair. The house was attractively decorated for the occasion. The literary exercises consisted of the reading by five different members, of an article in "World's Work" upon the centennial of Ohio's admission as a state, May 21 and 22 in the original capital of the state, Chillicothe. The article was a panegyric of Ohio and of the prominent part it has played in the development of the nation, and all Buckeyes present felt proud of the fact that they were from such a noble State. Dr. J. M. Whitney gave reminiscences of his early life in Ohio, and dwelt at some length upon one peculiar feature of its history, the "Underground Railroad" by which slaves escaped from the South to the North.

Light refreshments were served and after electing W. M. Graham and Miss Bruce, the Club adjourned to meet again in July at the residence of W. C. Weedon.

## PREPARATION FOR THE HOLY GHOST

The pavilion of the shrine for the Holy Ghost celebration of the Catholic Portuguese, which is to take place the latter part of this month at the Cathedral, is already being erected in the Mission grounds. This celebration among the Portuguese is one of their most important religious ceremonies of the year, and is attended with much pomp. There is a feast for twelve old men, six Portuguese and six Hawaiians, and there is also the distribution to the poor of a large amount of food, fowls being numerous gifts. The procession about the grounds, when the banner of the Holy Ghost is eagerly kissed by the devout celebrants, is an interesting scene.

### BUSINESS LOCALS.

Comfortable furnished rooms can be had at 1262 Beretania street. Nice quiet neighborhood.

The place in Honolulu to get swell haberdashery is at M. McInerney's, Fort and Merchant streets.

## Important Reasons

Why Herring-Hall-Marvin Safe Co. Safes and Locks are the Best.

The concrete filling makes these safes absolutely fire proof and positively damp proof. The solid angle corners add greatly to their security in time of fire and form the only solid corners made. The patent Bolt Work is superior to any in use and does not require the constant oiling, cleaning and repairs that is acknowledged in other makes of safes. That although 600,000 of these safes are now in use and many thousands have been tested by some of the most disastrous conflagrations in the United States, there is not a single instance on record wherein one of them failed to preserve its contents perfectly. They make safes for county treasurers, county recorders, county clerks, jewelers, hotels, residences, churches and corporations. We have a large assortment of safes on hand and will be pleased to show same.
